

BIOPROSPECTING MEDIA ROUND TABLE

25 February 2009

Public Understanding of Biotechnology Programme

MS SANDRA CLELLAND

Sandra is a registered Patent Attorney with more than 10 years experience in the patents field. She is a partner at IP specialist law firm Spoor & Fisher, where she heads up the Life Sciences/Biotech department, the largest patents department of its kind in Africa. Sandra has BSc(Hons) and LLB degrees from the University of KwaZulu Natal and was only the fifth woman in South Africa to qualify as a Patent Attorney. She is also a member of the Patent Examinations Board.

Her fields of practice include drafting and prosecuting local and international patent applications in the biotech, life sciences and pharmaceuticals fields; filing Plant Breeders' Rights applications; and advising clients on relevant legislation, including the Biodiversity Act. Sandra's local clients include some of South Africa's largest pharmaceutical and biotech companies, universities and research organizations, many of whom are engaged in bioprospecting in one form or another.
